ARC PRESIDENT, CHRIS HROUDA: TWO-FACED ON HEALTHCARE

RED CROSS DOUBLE CROSS

Recent letter sent to Coalition ARC employees, President of Biomedical Services, Chris Hrouda, did not convince us that ARC's high-cost, low-coverage plan is somehow comparable to Teamcare (Coalition Union Benefit plan).

Chris Hrouda has never been in bargaining, but we love how he is suddenly an expert on all the insurance proposals.

Our affordable, quality healthcare, was good enough for Red Cross to agree to in other contracts, but now suddenly he wants us to agree to be in management's high-cost insurance plan.

ARC has never tried to put other ARC unionized workers in their high-cost management plan, but now we are coming for The Coalition? That's unfair and unjust.

If affordable, quality health insurance was acceptable for other contracts within ARC, then it's acceptable for the nearly 100,000 workers across our ten unions.
